TRANSACTIONS of the ASAE

Number 1 Trans 1-96

A

Abernathy, G. H.	
Designing a grape harvester	218
Aeration of grain in vertical bins	98
AGRICULTURAL ENGINEERING (Agricultural Engineers)	
Charting the second 50 years	395
Fifth International Congress of Agricultural Engineering	691
Engineering, management and marketing combined for successful farming	708
A challenge to American engineers	749
Aldrich, Robert A.	
Preservatives for silo walls	Trans 94
AMERICAN SOCIETY OF AGRICULTURAL ENGINEERS	
Amending the constitution	15
ASAE motion picture project	151
Anderson, Earl D.	
Charting the second 50 years	395
Andrews, N. F.	
Predicting bearing and seal life expectancy	750
Apple storage, Internal atmosphere movement in CA	288
Arya, S. V.	
Penetration of liquid jets in soil	16
Auger conveyors: For handling free-flowing materials, Bucket elevators	552
Automation in hog finishing, Approaching	692
Avery, Bennett W.	
A data integrator for use with a strain gage recorder	Trans 36
Ayers, H. D.	
Measuring watershed runoff in Ontario	403

B

Barnes, K. K.	
Effect of paddle tip-clearance on forage blower performance	456
Barnett, Aurelius P.	
How intense rainfall affects runoff and soil erosion	703
Barre, H. J.	
Flow of bulk granular materials	534
Bearing and seal life expectancy, Predicting	750
Bearing design for farm machinery, Trends in ball	152
Bekker, M. G.	
Performance improvement in track-type tractors	630
Bilanski, W. K.	
Factors that affect the distribution of water from a medium-pressure rotary irrigation sprinkler	Trans 19
Blower performance, Effect of paddle tip-clearance on forage	456
Bond, T. E.	
Effectiveness of artificial shade materials	758
Boyd, J. S.	
Back siphonage testing of livestock watering devices	164
Wood truss design for farm buildings	400
Controlled temperature swine housing	Trans 45
Boyle, L. W.	
Correlative tillage and disease control practices with peanuts	Trans 91
Bray, R. W.	
Mechanical swine exerciser	352
Briskey, E. J.	
Mechanical swine exerciser	352
Brody, Aaron L.	
Minimizing off-flavors of irradiated foods	760
Brooker, D. B.	
Lateral duct air flow patterns in grain drying bins	348
Bruwer, J. J.	
Measuring variable rolling radii of tractor wheels	Trans 89
Buchele, Wesley F.	
Development of the tandem tractor	232
Application of continuum mechanics to soil compaction	Trans 24

Bucket elevators, auger conveyors: For handling free-flowing materials 552

Busch, Charles D.
Low cost subsurface drainage 92
Mechanical mouse aids research in subsurface drainage 292

C

Carter, R. L.	
Irrigator for research plots	Trans 43
Chancellor, W. J.	
Energy requirements for cutting forage	633
Chepil, W. S.	
Influence of one-way-disk and sub-surface-sweep tillage on factors affecting wind erosion	Trans 81
Chow, Yen Te	
Frequency analysis in small watershed hydrology	222
Collins, E. V.	
Development of the tandem tractor	232
Combine in barley, Performance characteristics of the grain	697
Compaction, Application of continuum mechanics to soil	Trans 24
Compaction, Concepts, terms, definitions and methods of measurement for soil	173
CONSERVATION, Soil and Water (See also Drainage, Erosion Control, Hydrology, Irrigation, Soils, Water Resources)	
Frequency analysis of rainfall intensity data	344
Chemicals for controlling evaporation from open water surfaces	Trans 72
Continuum mechanics to soil compaction, Application of	Trans 24
Controlling evaporation from open water surfaces, Chemicals for	Trans 72
Cooling fruits and vegetables, Some engineering aspects of	Trans 38
Corn, Equilibrium moisture content of shelled	466
Correction	
Density: A tool in silo research (Dec. 1957 issue)	34
Cotton to air flow, Resistance of seed	160
Crow, F. R.	
Chemicals for controlling evaporation from open water surfaces	Trans 72
Crusher, Electric tree	27
Cutting forage, Energy requirements for	633

D

Dale, A. C.	
Fan ventilation control for poultry houses	471
Daniel, E. R.	
Chemicals for controlling evaporation from open water surfaces	Trans 72
Data integrator for use with a strain gage recorder, A	Trans 36
Davis, J. R.	
Flow measurements for sprinkler irrigation systems	649
Design, Applying digital computers to farm tractor	Trans 1
Disk cuts graphically, Analyzing	285
DRAINAGE, Land	
(See also Hydrology)	
Low cost subsurface drainage	92
Device for measuring pipe effluent	282
Mechanical mouse aids research in subsurface drainage	292
Land leveling for drainage and irrigation	463
Machine lays plastic drain	712
Farm drainage by pumping	754
Drury, L. N.	
Remote indicating thermometer for animal research	410
DRYING—Driers	
(See also Ventilation)	
Molds impose limitations in grain drying	24
Aeration of grain in vertical bins	98
Resistance of seed cotton to air flow	160
Lateral duct air flow patterns in grain drying bins	348
Air pressure requirements for tunnel-system deep-bed grain dryers	Trans 9
Maximum time for safe drying of grain with unheated air	Trans 29
Dunn, Stuart	
These plants grow without sunlight	Trans 76
E	
Ebbinghaus, J. H.	
Non-free-flowing materials: Silage handling techniques	556
EDITORIALS	
ASEE college-industry conference	62
Maximum utilization of technical manpower	217
Farm equipment industry prospects up	335
Engineering enrollment survey	335
AE scholarships announced	734
Egg processing: Part II—Moisture loss, On-the-farm	28
ELECTRIFICATION, Rural	
Fan ventilation control for poultry houses	471
A practical approach to the farm wiring problem	Trans 53
A high frequency pressure sensing element	Trans 54
These plants grow without sunlight	Trans 76

Energy analysis of agricultural tasks, Time and	Trans 50
Energy requirements for cutting forage	633
Engineers, A challenge to American	749
EROSION CONTROL, Soil	
(See also Hydrology, Soils)	
Spacing of level terraces in Western Iowa	20
Measuring watershed runoff in Ontario	403
Evaluation of factors in the soil-loss equation	458
How intense rainfall affects runoff and soil erosion	703
Effect of cropping and tillage practices on runoff and erosion in the Palouse area of Washington and Idaho	Trans 34
Retardation coefficients for row crops in diversion terraces	Trans 78
Esmay, Merle L.	
Wood truss design for farm buildings	400
Evaporation from open water surfaces, Chemicals for controlling	Trans 72
Evapotranspiration values, Lysimeter checks on empirical	94
F	
Feed grinder-mixer, Developing an automatic	406
Finner, M. F.	
Mechanical swine exerciser	352
Fore, J. M.	
Internal atmosphere movement in CA apple storage	288
Fluid heat meter	763
Fry, A. W.	
Flow measurements for sprinkler irrigation systems	649
Fryrear, J. I.	
Stability of poles under tilting moments: Part I — Experiments and results	166
Full-scale building sections, Equipment for accelerating and evaluating simulated natural forces on	Trans 86
Futral, J. G.	
Correlative tillage and disease control practices with peanuts	Trans 91
G	
Gear design for finite life	396
Goss, J. R.	
Performance characteristics of the grain combine in barley	697
Grain dryers, Air pressure requirements for tunnel-system deep-bed	Trans 9
Grape harvester, Designing a	218
Grube, Harry C.	
A practical approach to the farm wiring problem	Trans 53
Grummer, R. H.	
Mechanical swine exerciser	352

Guillou, Rene	
Some engineering aspects of cooling fruits and vegetables	Trans 38
Gunkel, Wesley W.	
Principles of liquid materials handling	530
Gunlogson, G. B.	
How efficient will be the farm machine of the future?	629
H	
Hall, Carl W.	
Equilibrium moisture content of shelled corn	466
Theoretical considerations in materials handling systems	524
Haller, T. A.	
A challenge to American engineers	749
Handling in the United States and Canada, Current research activities in feed	582
Handling loads and stacks	569
Handling of fruits and vegetables, Unit	566
Handling problems of non-free-flowing materials, How automatic equipment solves	562
Handling techniques for hay and manure, Non-free-flowing materials:	558
Handling techniques, Non-free-flowing materials: Silage	556
Hansen, C. M.	
Engineering principles in handling liquid materials	546
Hansen, E. L.	
Approaching automation in hog finishing	692
Harrold, Lloyd L.	
Lysimeter checks on empirical evapotranspiration values	94
Effect of vegetation on soil moisture	Trans 6
Hart, Samuel A.	
An orthographic projection method for approximating the radiation shape factor	Trans 12
Harvesting edible beans in Michigan	Trans 68
Heat meter, Fluid	763
Henderson, S. M.	
On-the-farm egg processing: Part II — Moisture loss	28
Air pressure requirements for tunnel-system deep-bed grain dryers	Trans 9
Hermesmeier, L. F.	
Device for measuring pipe effluent	282
Hershfield, D. M.	
Frequency analysis of rainfall intensity data	344
Hessenthaler, W. H.	
Machine laying of polyethylene mulch	235
Hinkle, Charles N.	
Fluid heat meter	763

Hoekstra, W. G.	
Mechanical swine exerciser	352
Hog finishing, Approaching automa- tion in	692

Horner, G. M.	
Effect of cropping and tillage prac- tices on runoff and erosion in the Palouse area of Washington and Idaho	Trans 34

Howe, R. S., Jr.	
Trends in ball bearing design for farm machinery	152

Hurst, H. T.	
Equipment for accelerating and eval- uating simulated natural forces on full-scale building sections	Trans 86

HYDROLOGY

Frequency analysis in small water- shed hydrology	222
--	-----

I

INSTRUMENTATION AND CONTROLS

Remote indicating thermometer for animal research	410
Measuring light transmittance prop- erties of agricultural commodities	640
Irradiated foods, Minimizing off- flavors of	760

IRRIGATION

Lysimeter checks on empirical evapotranspiration values	94
Comparing efficiencies in irrigation water application	156
Land leveling for drainage and irrigation	463
Flow measurements for sprinkler irrigation systems	649
Factors that affect the distribution of water from a medium-pressure rotary irrigation sprinkler	Trans 19
Irrigator for research plots	Trans 43
Design of irrigation ponds using pond and ground-water	Trans 65

J

Jets in soil, Penetration of liquid	16
Jones, L. G.	
Performance characteristics of the grain combine in barley	697

K

Kaupke, C. R.	
Designing a grape harvester	218
Kazarian, Edward A.	
Controlled temperature swine housing	Trans 45
Kelly, C. F.	
Effectiveness of artificial shade materials	758
Kemp, J. G.	
Analyzing disk cuts graphically	285
Kepner, R. A.	
Performance characteristics of the grain combine in barley	697

Kidder, E. H.	
Factors that affect the distribution of water from a medium pressure rotary irrigation sprinkler	Trans 19
Klingelhofer, Karl R.	
Farm drainage by pumping	754

L

Lamouria, L. H.	
Designing a grape harvester	218
Larson, C. L.	
Device for measuring pipe effluent	282
Larson, W. E.	
Spacing of level terraces in Western Iowa	20
LeClerg, E. L.	
Statistics in agricultural engineering research	88
Leveling for drainage and irrigation, Land	463
Levin, Jordan H.	
Unit handling of fruits and vegetables	566
Light transmittance properties of agri- cultural commodities, Measuring	640
Liljedahl, J. B.	
A high frequency pressure sensing element	Trans 54
Lind, E. F.	
Maximum time for safe drying of grain with unheated air	Trans 29
Lund, Z. F.	
Deep tillage for crop production	Trans 40

Mc

McAninch, H. A.	
Gear design for finite life	396
McColly, H. F.	
Harvesting edible beans in Michigan	Trans 68
McCreery, W. F.	
Correlative tillage and disease con- trol practices with peanuts	Trans 91
McCune, Donald L.	
Rainfall simulator for runoff plots	644
McLeod, H. E.	
Effect of paddle tip-clearance on forage blower performance	456

M

MACHINERY, Farm (See also Tractors)	
Penetration of liquid jets in soil	16
Electric tree crusher	27
Statistics help evaluate functional components of farm machinery	31
Trends in ball bearing design for farm machinery	152
Designing a grape harvester	218
Machine laying of polyethylene mulch	235
Fundamentals of pressure distribu- tion and soil compaction under tractor tires	276

Analyzing disk cuts graphically	285
Agricultural machinery testing organ- ization formed in Canada	291
Soil reaction: To plow share design	336
Soil reaction: To subsoiling equipment	340
Mechanical swine exerciser	352
Gear design for finite life	396
Developing an automatic feed grinder-mixer	406
Materials handling conference	455
Effect of paddle tip-clearance on forage blower performance	456
Materials handling: Farm produc- tion integrator	517
Handling materials on farms	518
Theoretical considerations in ma- terials handling systems	524
Principles of liquid materials handling	530
Non-free-flowing materials: Silage handling techniques	556
How efficient will be the farm ma- chine of the future?	629
Energy requirements for cutting forage	633
Performance characteristics of the grain combine in barley	697
Machine lays plastic drain	712
Predicting bearing and seal life expectancy	750
Definitions of tillage operations and equipment	Trans 57
Harvesting edible beans in Michigan	Trans 68
Influence of one-way-disk and sub- surface-sweep tillage on factors affecting wind erosion	Trans 81
Mahoney, G. W. A.	
Stability of poles under tilting mo- ments: Part I—Experiments and results	166
Malvern, L. E.	
Application of continuum mechanics to soil compaction	Trans 24
Marsh, Albert W.	
Controls for routine pressure membrane operation	Trans 48
Martin, C. L. Jr.	
Handling loads and stacks	569
Mason, David D.	
Statistics help evaluate functional components of farm machinery	31
Mason, J. P. H., Jr.	
Equipment for accelerating and eval- uating simulated natural forces on full-scale building sections	Trans 86
